The first numismatic work printed in Russia

- 3001 Bayer, Theophilus Siegfried. **THEOPHILI SIGEFRIDI BAYERI REGIOMONTANI. HISTORIA OSRHOËNI ET EDESSENA EX NVMIS ILLUSTRATA, IN QUA, EDESSA VRBIS, OSRHOËNI REGNI, ABGARORUM REGUM, PRAEFECTORUM GRAECORUM, ARABUM, PERSARUM, COMITUM FRANCORUM, SUCCESSIONES, FATA, RES ALIA MEMORABILES, A PRIMA ORIGINE VRBIS AD EXTREMA FERE TEMPORA EXPLICANTUR.** Petropoli: ex typographia Academiae, 1734. Only edition, 4to, pp [10], 362 [10]; printed in Roman, Greek Syriac and Arabic fonts; 7 engraved plates of numismatic interest; chronological tables in the text. Original blue paper-covered backed in brown calf, red morocco label (faded to pink) on spine. Without front and end paper, but generally a very pleasing example of one of the first books printed at the printing offices of the Russian Academy of Sciences in St. Petersburg which began its activity in 1727. The very first numismatic book printed in Russia, elusive and important rarity. Very fine \$ 2,500
- A renowned polymath, philologist, orientalist and classicist, Bayer, who hailed from the same family as the famous astronomer Johannes Bayer, lived for many years in St. Petersburg, and was a founding member of the Russian Imperial Academy. Bayer published many works on Oriental numismatics. The book above is an overview of the complete history (until about 1400) of Edessa. Now known as Urfa, in southeastern Turkey, Edessa was once the capital of a small kingdom which kept a relative and precarious independence from the Romans and the Persians. When the Roman Empire fell, the city was contested between the Persians and the Byzantines, and later conquered by the Arabs. It fell later to the Franks, and then became part of the Ottoman Empire. The coins represented in the plates are all from the period of the independent kingdom.*

3007 Georgii Mikhailovich, Grand Duke. Вел. Кн. Георгій Михайлович. **Монеты Царствования Императора Петра I. Том II.** Coins of Peter I, 1682-1710. St. Petersburg, 1914. Half-title in red and black, magnificently engraved portrait of Petrus Alexewitz, fine frontispiece title, dedication leaf, ii, (2), 153, (1) pages, 55 very fine *Photohyalotypie* plates, depicting coins from 1682 to 1710. Folio: 41 x 31 cm. Lacking printed wrappers, half-title and title worn, soiled and stained, top half of portrait stained, back of final plate soiled, remainder of contents generally fine.

(Georgii Mikhailovich, Grand Duke. Вел. Кн. Георгій Михайлович) . **PL. LVI – XCV & (XCVI – CIII) ТАБ. LVI – XCV & А-3.** No place or date. 48 very fine *Photohyalotypie* plates of coins in all. Some plate captions in French, some in Russian. Plates LVI-LXV and subsequent plates in Russian are approximately 42 x 32 cm; plates in French and the final series of eight plates are approximately 35.5 x 27.5 cm. All are loose. The last eight plates are neatly lettered, dated and numbered in pencil. A few plates are a trifle clipped at corners. Recently rebound in three quarter brown morocco and green publishers cloth. Blue title label laid on spine, gilt lettering. Loose plates contained in custom-made clamshell box bound to match first volume

Ex 'Important Numismatic Books', G.F. Kolbe an Spink & Son, Ltd., New York, NY, December 9, 1995, Lot 189.

Ink stamp of Библиотека ООА Академии Наук СССР on the back of the title and plates in the main volume. No. 39 of only 200 copies, covering the 1682-1710 coinage. Also presented in a series of plates covering 1711-1719 coinage. Planned by the Grand Duke Volume III, was to have covered 1711-1719. Some 50 plates, not all fully-finished, exist, and the Hermitage holds some manuscript pages of the draft text. It is believed only 10 sets of plates A-3 surfaced during WWII and only few of those are in private hands.

- Born in Tiflis (Tbilisi) in 1863, Grand Duke Georgii Mikhailovich was Russia's preeminent numismatic researcher and collector. His name, in fact today, is synonymous with Russian numismatics. Mikhailovich began collecting coins as a teenager, and his wealth and privilege allowed him to build a magnificent collection. In "Description and Illustration of Some Rare Coins in My Collection," he first proposed publishing a corpus of Russian coinage from Peter the Great onwards. Count Tolstoi had already proposed a corpus of Pre-Petrine coinage a few years earlier. The Grand Duke funded and directed the grand project, and the various volumes were compiled by Giel, Demmeni and others. Twelve volumes were finished before war broke out and brought completion of the corpus to a standstill – parts 1, 3 and 4 of the Peter the Great series never saw publication. Mikhailovich, along with three other Russian Grand Dukes, was executed on January 28, 1919 by Bolsheviks. Only 200 sets of the Russian edition of his master work were issued and it is likely that, at best, a similar number of the French translation were printed.*
